

About Our Company

Founded in 2005, Tiger Industries is the manufacturer and distributor of a family of environmentally safe and all natural agricultural and greenhouse products including: **TigerCal 30™**, **TigerShark™**, and **Reflections™**.

Tiger Industries products are used in a variety of applications. Typical applications include the following:

- Agriculture
- High Value Crops
- Golf Courses
- Turf Grass
- Athletic Fields
- Soil Amendments and Fertilizer
- Compost Enrichment

Landscapers using Hydro-Seeding products from Tiger Industries report fuller, thicker lawns days sooner than without.

Tiger Industries

Hydro-Seeding Products

Hydro-Seeding depends on good seed, proper cellulose mediums, water, and balanced nutrients.

TigerCal 30 Liquid Calcium

TigerCal 30 Liquid Calcium is a chelated natural calcium concentrate made with soluble and insoluble calcium and a Menefee Humate stimulant that promotes growth, root strength, and helps move nutrient uptake to your grass.

TigerShark Fish Fertilizer

TigerShark Fish Fertilizer is an organic and all natural bio-stimulant made from North Atlantic fish with an N-P-K of 2-4-1, but acts like an NPK of 20-20-20. Nutrients in TigerShark suspend in the soil and do not leach out or gas off.

Packaging

Tiger Industries Hydro-Seeding products are available in the following containers:

- 5-gallon pails
- 55-gallon drums
- 275-gallon IBC totes

Application Rate

TigerCal 30 Liquid Calcium:

Apply 2 gallons TigerCal 30 Liquid Calcium per 10,000 FT² application area.

TigerShark Fish Fertilizer:

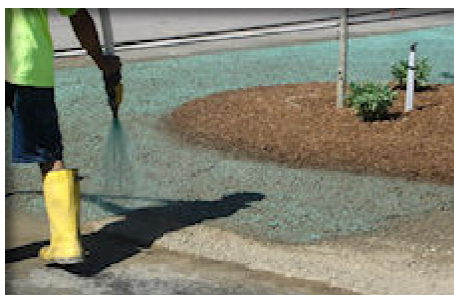

Apply 2 gallons TigerCal 30 Liquid Calcium per 10,000 FT² application area.

Mixing Instructions

Add TigerCal 30 Liquid Calcium when filling tank, then cellulose medium, followed by seed, TigerShark Fish Fertilizer, and then water. Run the mixing pump to keep blend in suspension.

Clean Up

Clean up is a snap! Simply wash out tank with water!

TigerCal 30 Liquid Calcium and TigerShark Fish Fertilizer products are designed to be delivered through spray equipment systems without clogging.

Testimonials

For the past three years I have used TigerShark and the results have been remarkable!” – Michael Rielly

“We have seen that the grass is up two days faster and comes in thicker.

Tiger Industries hydro-seeding products are great to work with; just pour and off you go. When the day is over, clean up is a snap. We save money on the product, labor, and increase our productivity. ”
– Jimmy Rodger, OtherSide Landscaping

“With TigerCal 30 Liquid Calcium, you will see dramatic results your first season!” – Ray Frizzell

Always conduct a jar test for compatibility before mixing with new products
