TigerCal 30™ Liquid Calcium

TigerCal 30 Liquid Calcium

TigerCal 30 Liquid Calcium is a chelated natural calcium concentrate with a Menefee Humate stimulant that helps a plant's nutrient uptake and promotes strong healthy cell growth.

These photos illustrate how TigerCal 30 can dramatically increase your yields. Planted on the same day, this side-by-side comparison shows lettuce with TigerCal 30 a full 3 inches larger than the lettuce without!

TigerCal 30 Liquid Calcium is designed to be delivered to crops through ordinary field spray equipment, crop dusting, or irrigation systems without clogging.

TigerCal 30 Liquid Calcium can be mixed in tanks with most soil applied herbicides, nitrogen solution, liquid fertilizers and other farm chemicals eliminating extra trips across your fields.

Always conduct a jar test for compatibility before mixing with new products

Research Results

TigerCal 30 Liquid Calcium will show dramatic and instant results your first season.

CROP	RESULTS
onions	25% increase in yield 6% decrease in defects
tomatoes	24% increase in yield
potatoes	5% increase in yield more consistent sized
beans	10% increase in yield 3% increase in size
carrots	84% increase in yield 97% decrease in defects
shitake	24% increase in yield more consistent sized

Research results from six (6) universities

TigerCal 30 Liquid Calcium has also has been shown to eliminate tip burn and blossom end rot.

If your calcium is not available to your plants, then it's just a rock!

All Tiger Industries products are non-toxic and biodegradable!

Application

Drip Applications: As a nitrogen additive, apply at a rate of 2 to 5 gallons per square acre.

Soil Applications: To improve soil structure, apply at a rate of 1 to 3 gallons per square acre.

Foliar Applications: Apply at a rate of 2 to 5 gallons per square acre as a foliage spray to prevent corking and a bitter pit in the fruit.

"TigerCal 30 Liquid Calcium will help you grow a better crop and a better bottom line."

"Using TigerCal 30, we have seen that the grass is up two days faster and comes in thicker." – Jimmy Rodger
